

# Musiq, Realove

Album: Juslisen (Just Listen)

I know this girl from way back  
Some time ago  
Fine as the autumn sun  
With a heart of gold yeah  
One day we talked about some  
Men in her past  
Cause I was just tryin to understand

Why it's always like she always tried to hide  
What it is she feels or what's on her mind  
When it comes to love  
She gets so afraid that someone will come  
And hurt her again someday

Chorus:

All her life she never had  
Someone to show her what it means  
To have or be in Realove

She never had a man  
Who was kind to her  
Never told her I love you  
Without gettin hurt no  
Some people say she's bitter  
Some think she's scared  
Some people say she thinks nobody cares

Now she walks around  
And protects her heart  
Never look for love  
Lives behind a wall  
Tell it to herself  
All men sre the same  
Cause that's how it is  
And that is such a shame

Chorus
