

Musiq Soulchild, Bestfriend

(feat. Carol Riddick)

[Verse 1]

[Musiq]

Now a days I don't understand
Why my love doesn't love me like she used to before
Now lately the sun jus doesn't shine and my paradise is gone

[Chorus 1]

Cause most of the time
We argue and fight
Over things that doesn't really matter
Lord knows that I tried
To give all my love
So what should I do?

[Chorus 2]

[Carol]

You got to understand it's all about give and take
You can't be so demanding
Things won't always go your way
If you just give it time
And think about her feelings
Then things will work out fine
Learn to make her your best friend

[Verse 2]

[Musiq]

I hear what you saying but my girl she's always
Complaining and and blaming me for things I'll never do
And I don't know what, what it is that I did that was
So wrong to make her feel I'll ever be untrue to her

[Chorus 1]

Cause most of the time
We argue and fight
Over things that doesn't really matter
Lord knows that I tried
To give all my love to her what should I do?

[Chorus 2]

[Carol]

You got to understand it's all about give and take
You can't be so demanding
Things won't always go your way
If you'll just give it time
And think about her feelings
Then things will work out fine
Learn to make her your best friend

[Bridge 1]

See what you need to do is stop catching attitude's
And just try to take the time to hear her out
Stop being so defensive and try to be more attentive to
Show here you respect what she's talkin 'bout
Cause you know how us women can be and when we
Feel threatened we react instinctivly when our emotions have grown to its high we can tend to
just let it control

Our lives

[Musiq]

Well all right I'll try next time I'll try a little tenderness
Even make sure that I give her more complements
Maybe I could practice on being more patient
And compromise for my baby yeah yeah.

[Bridge 2 2x]

[together]

If you want her in your life
Then you got to be willing to try
See it's worth the struggle
Cause in the end she will always
Be your best friend yeah.
