(feat. Bilal)

Party people in the place to be
This is history in the makin Musiq & Bilal
don't stop rock on
Everybody's on the floor
So how bout you just come on and dance with me
Aint no need to be afraid (no)
I just want to see you out there
Doing your thang
I gon be out there with you,
Yeah you can count on me
See I will be right there just dancing behind you girl
don't nobody else care
About what you do
All you gotta do is pretend
Its just me and you

[Chorus]

Shake it up, it now, don't stop doin it no
Give it up, get it now, don't stop doin it no
Shake it up, it now, don't stop doin it no
Give it up, get it now, don't stop doin it no
Now that I got you off the wall
Just concentrate moving your body to the beat
don't you worry bout a thing
Anything you feel like doing is cool with me
You can do whatever you want
To d with me cause
I am gonna be this floor all night long
I came out tonight to dance
And you gon come dance with me
At least until the end of this song

[Chorus]

Let me see you move
Do what you do
Ooh I really wanna help you out them clothes
And do it right here on the floor
