

Musiq Soulchild, Givemorelove

The children
Need something
With more substance
And more meaning
A message, intended
To leave them with something much more to believe in
Now its cool for us to say and so
All the things we so to express ourselves
But we should, try to find a way
To bring balance. To this hate and
Leave a good impression on someone else

[Chorus]

(Cause in our world)
There isn't much love goin around
(aint enough love goin around)
We should try to, give a little bit more
(yeah, in our world)
There isn't much love goin around
(We should try)
We should try to give a little bit more
Now lovers
Of this music
shouldn't get so caught up, in all of the rumors and lies
We're the same as you
We got feelings too
And you know we're human
Just trying to live our lives
There will come a day when the world is gonna change
And, things will be much better than, how they are
Where, happiness is the way, and
Joy out weighs the pain, and
Oh, how I prayed to God that day isn't far

[Chorus]

All we want in this world
We can have, thru love
All we need, in this world
We can get with love
All we got, in this world
We can keep thru love
All we got to do is just, give a little more love
In this world
