

Musiq Soulchild, Leave a message

Yo, you've reached Musiq's cell phone, uh,
I'm sorry I can't pick up right now
I'm kinda busy at the moment
But if you leave your name and your number
The whole routine, I'll get back to you as soon as I can
And if I don't, don't get mad, yeah you too, peace
I'm sorry that I'm not around
To listen to what you have to say
I hope it wasn't so important that I
Just had to hear cause it couldn't wait
I wish I knew what it was you wanted
Just to see if there was something that I could do
Oh, I know you probably thinking the worse of me now
But I understand that I'm not avoiding you

[Chorus]

If I don't call you or come over it's only just come
I've got so much work to do
So sometime before this song is over
Leave a message and I'll promise I'll get back to you
Cause you know how things are some days
My time be moving just way too fast
While you may be thinking I should set some aside for you
I'm just trying not to let it pass me by
Now I don't want to take you for granted
And please believe that I'm not ignoring you
Well I guess I can't expect you to understand it all
But I pray you don't take it personal

[Chorus]
