

Musiq Soulchild, Teachme

[Verse 1:]

I was told the true definition of a man, was to never cry
(Work till your tired, yea, got to provide, yea.)
Always be the rock for my fam, protect them by all means,
And give you the needs that you need, baby
Our relationship is suffering, trying give you what I never had
You say I don't know how to love babe, But I say, show me the way
I keep my feeling deep inside, I, shadow them with my pride eye
I'm trying desperately baby, just work with me

[Chorus:]

Teach me how to love
Show me the way to surrender my heart
Girl I'm so lost, teach me how to love
How I can get my emotions involved, teach me
Show me how to love
Show me the way to surrender my heart
Girl I'm so lost, teach me how to love
How I can get my emotions involved, teach me
How to love

[Verse 2:]

I was always taught to be strong, never let them think you care at all
Let no one get close to me, before you and me
I then shared things with you girl bout my past, that I never tell
To anyone else (no), just keep it to my self (yes)
Girl I know I lack affection, and expressing my feelings
It took me a minute to come and admit this but
See I'm really trying change now, wanna love you better show me how
I'm trying desperately baby, please work with me

[Course:]

Teach me how to love
Show me the way to surrender my heart
Girl I'm so lost, teach me how to love
How I can get my emotions involved, teach me
Show me how to love
Show me the way to surrender my heart
Girl I'm so lost, teach me how to love
How I can get my emotions involved, teach me
How to love

[Verse 3:]

Ain't nobody ever took the time to try teach me what love was but you
And I have never trust no one enough to tell me what to do
Teach me how to show and, show how to love you babe
(Teach me, please just show me yea)
Cause, I'm willing, to let go of my fears, girl I'm serious about all that I say
Girl I wanna love you, with all of my heart
Baby show me where to start

[Chorus:]

(How to love) Teach me how to love
Show me the way to surrender my heart.
Girl I'm so lost, teach me how to love
How I can get my emotions involved, teach me
Show me how to love
Show me the way to surrender my heart.
Girl I'm so lost, teach me how to love
How I can get my emotions involved, teach me
How to love

Teach me, how to love, you babe
Teach me how to love you better, know I wanna love you better girl.
