

# Musiq Soulchild, You And Me

[Verse 1:]

I never thought on the first night  
You would bare what you hold so dear to life  
And share with me all your innermost fantasies baby  
And afterwards in my arms you cried  
Had me feeling some kind of way on the inside  
Then I knew it was going to be me and you

[Hook:]

So if the world was to believe that what we share weren't meant to be  
Then it would be just you and me against the world  
And if our friends and family if our friends and family  
Can't bear to see us both happy  
Then it will be just you and me against the world, yeah

[Verse 2:]

Now I'm not the kind that kiss and tell  
But my man said that he really knows you well  
But I don't care cause I wanna know you form my damn self  
And even if my sister said you scandalous  
Said that you're known to go from one man to the next  
But I don't care what she say  
Cause you're going to forever be my lady

[Hook:]

I wouldn't care if you were a prostitute  
And that you hit every man that you ever knew  
You see it wouldn't make a difference if that was way before me and you  
And you don't ever have to worry about me  
As long as you keep it real  
Whatever is on your mind  
You speak on how you feel  
Stay truthful to me  
Never lie to me  
And don't ever keep no secrets  
No matter whatever, whatever no  
Girl you know what I mean

They could say what they want  
But it will never change my views  
Cause they'll never know you the way that I know you  
See I'm trying to share the rest of my whole life with you  
And if we got to be alone, so be it baby  
If they can't understand our love  
Then we don't need them baby  
We can go against the whole world  
Even our friends turn on us  
Even our family turns on us  
That's alright  
Cause as long as we got each other baby  
Then we can make it baby  
Through whatever
