

Musiq Soulchild, You Be Alright

[Verse 1:]

So many people are on a search to find
Within their days for that place
Within their minds to hide
And dump the load of this worldly life
And the things that it can make you feel and do
Just to pass away your time

[Chorus:]

But you be alright
Cause if you just hold on
Be strong (you)
You be alright
Yes you will (yeah)

[Verse 2:]

People have a tendency
To think to themselves that they're the only ones
Going through more things than anyone else
But oh, I bet you'll beg to differ
If you would just consider the bigger picture
Cause then you would see that most people go through
The same things that you do in life

[Chorus:]

But you be alright
Cause if you can take it
You surely can make it
You be alright (yeah)

[Bridge:]

Just take a good look around
Look at the things and all the people
People that you see cause
We share a joy, we share a pain
So it doesn't matter at all
Ohh, were all the same

[Chorus:]

But you be alright
Cause if you can take it
You surely can make it
You be alright (yeah)

[Bridge:]

Don't think that you're the only one
Cause you be alright
See I know things look real hard now
It's gonna work out somehow
Problems may come problems may go
Just as long as you know

[Chorus:]

But you be alright
Cause if you can take it
You surely can make it
You be alright (yeah)
