

# Must, No Way Out

No way out  
No way out  
You still hold me  
You still hold me  
You still hold me  
You still hold me

No way out  
No way out

And le not yet answers  
Just sweet oblivion  
You still hold me  
You still hold me

And Il always be  
And Il always be  
And Il always be  
And Il always be  
At your mercy

No way out  
No way out

And don I know it  
Alive and lucid  
You still hold me  
Tight and totally  
Father, fuck you  
Mother, I blame you too  
Upon me strength bestow yourself  
For God is waiting

And Il always be  
And Il always be  
And Il always be  
And Il always be  
At your mercy ill I beat you

No way out  
No way out  
I at your mercy ill I beat you
