

Mustasch, Stinger Citizen

You've been holding down so long
You can't stand up
You've become a lie
And now you can't get up

The one and only
We're gonna get you rolling
Stinger Citizen you're on a dead end ride
Come on out
Don't you back on down

Do you wanna get up

Stinger Citizen and the fear of falling out
Stinger Citizen you're soon to see the light
The one and only
We're gonna get you rolling
Don't you back on down

Don't you back on down
