

# Mustasch, Unsafe At Any Speed

We've been around for so long the wheels of time keep turning  
the hall of fame our final destination of this journey  
well I'm a man to rapped in this bound and now I am total resistant  
believe me now cause I don't whine but I want a careful ride

You will remember our name  
cause we lead the way  
don't you think that you're safe  
we'll come for you again

It's been a hard days night to qualify for pole position but as time goes by reality turns into fiction  
endless days are lonely nights that's all that's left for me  
if you're not buckled up you're unsafe at our speed

You will remember our name  
cause we lead the way  
don't you think that you're safe  
we'll come for you again

rain is falling while we're boarding I don't know where we're going  
rain keeps falling while we're boarding we attend a never ending tour
