

Mute Math, Spotlight Twilight Mix

You got a whole lot left to say now
You knocked all your wind out
You just tried too hard and you froze
I know, I know
What to say, what to say
Just take the fall
You're one of us
The spotlight is on
(Ahh ahh)
Oh the spotlight is on, oh
You know the one thing you're fighting to hold
Will be the one thing you've got to let go
And when you feel the wall cannot be burned
You're gonna die to try what can't be done
Gonna stay stay out but you don't care
Now is there nothing like the inside of you anywhere
Oh just take the fall
You're one of us
The spotlight is on
(Ahh ahh)
Oh the spotlight is on, yeah it's on
Because everyone would rather watch you fall
And we all are, yeah
And we all are, yeah
Just take a fall
You're one of us
The spotlight is on
(Ahh ahh)
Oh the spotlight is on
(Just take the fall)
Now you're one of us
Now you're, now you're, now you're, now you're one of us
Now you're, now you're, now you're one of us
Oh the spotlight is on
