

# Mute Math, Without It

Here we are; isn't life bizarre?  
It likes to take from us and throw it out  
We'll carry on, what's done is done  
Yeah, we'll do without it somehow

The world is gone, don't think about it  
'Cause life is short, we'll do without it  
You say the road is long, don't think about it  
'Cause life is short, we'll do without it

We can move on from here, don't worry  
The best we've known is yet to come  
We can move on from here, don't worry  
The worst won't get the best of us

Some memories are crippling  
Don't let the disease bring us down  
There's nothing else to know, just let it go  
Yeah, we'll do without it somehow

The world is gone, don't think about it  
'Cause life is short, we'll do without it  
You say the road is long, don't think about it  
'Cause life is short, we'll do without it

We can move on from here, don't worry  
The best we've known is yet to come  
We can move on from here, don't worry  
The worst won't get the best of us

The world is gone, don't think about it  
'Cause life is short, we'll do without it  
We'll do without it, we'll do without it  
We'll do without it, we'll do without it

And we can move on from here, don't worry  
The best we've known is yet to come  
We can move on from here, don't worry  
Don't you worry

Though the world is gone, we'll carry on  
We'll do without it, we'll do without it  
Though the world is gone, we will carry on  
We'll do without it, we'll do without it
