

MuteMath, Without It

Here we are
Isn't life bizarre?
It likes to take from us and throw it out
We'll carry on
What's done is done
Yeah, we'll do without it somehow

The world is gone, don't think about it
Cuz life is short we'll do without it
They say the road is long, don't think about it
Cuz life is short we'll do without it

We can move on forward
Don't worry
The best we've known is yet to come
We can move on forward
Don't worry
The worst won't get the best of us

Some memories, a crippling
Don't let the disease bring us down
There's nothing else to know
Just let it go
Yeah, we'll do without it somehow

The world is gone, don't think about it
Cuz life is short we'll do without it
They say the road is long, don't think about it
Cuz life is short we'll do without it

We can move on forward
Don't worry
The best we've known is yet to come
We can move on forward
Don't worry
The worst won't get the best of us

The world is gone, don't think about it
Cuz life is short we'll do without it
We'll do without it
We'll do without it
We'll do without it
We'll do without it
Go

We can move on forward
Don't worry
The best we've known is yet to come
We can move on forward
Don't worry
Don't you worry

Though the world is gone
We'll carry on
We'll do without it
We'll do without it
