MxPx, Biased Bigotry

it's so easy to find the faults in everyone else & mp; not look at myself i'm geting used to not having to look at the facts of where I'm at

you don't know me so don't judge me your biased bigotry can't control me

God's son my judge only He & Double who ar you you see my skin God see's my heart deep within

the way I see the way it seems to me I won't agree you can't live my life for me
