

MxPx, Christmas Day

She waits and prays, because It's Almost Christmas Day
A little Faith, Can always go such a long way

There's something about the way you spend your Christmas
There's something about the way you care
There's something about the way you kiss

A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way on Christmas Day
A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way on Christmas Day

There's Christmas cheer, enough to last you three whole years
There's the mistletoe, if you were me I think you would know

There's something about the way you spend your Christmas
There's something about the way you care
There's something about the way you kiss

A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way on Christmas Day
A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way on Christmas Day

The snow outside covers the ground
And as a watch it falling
down I think of her, so far away
And how much I like to be with her
On Christmas day [4x]

A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way on Christmas day
A little goes a long way
A little goes a long way
A little goes a long way
A little goes a long way on Christmas Day
