

# MxPx, Destroyed By You

Can someone tell me why I'm feeling this way?  
Can someone tell me why this world is so grey?  
It's never just black and white  
So much went on tonight  
was I wrong or was I right?  
You think the whole world revolves around around your head  
You are ignoring me, you haven't heard a word I've just said  
Why can't I just pull myself together?  
What's done is done, never say never  
Always look for good in the bad  
learn from the mistakes that I have had  
I re and re-learn  
to let it go  
talk is easy  
but it's so hard to show
