

# MxPx, Every Light

Deep down in the oceans of my soul  
I breathe the water in don't make me whole  
A shadow at the bottom of the sea  
Moving with the current floating free

But will time swallow all the pain  
Floating to the streets into the storm drain

[Chorus:]

It's peaceful in my neighborhood at night  
Every house has turned off every light  
But I can't seem to find the switch for mine  
Every light is on inside my mind

I don't think I've ever been so cold  
I breathe the fire in don't make me bold  
Now my life will never be the same  
What was once a spark is now a flame

[Chorus]

I'll find rest tonight  
Wake up in the early morning light

To face the day and not turn away  
Give my all, answer my call  
Follow me where life is free  
Take my hand into eternity.

[Chorus]
