

MxPx, Oh Boy

all my love, all my kissing you don't know what you've been missing oh boy -
oh boy when you're with me the world can see that you were meant
for me all my life, i've been waiting. tonight there'll be no hesitating oh boy -
oh boy stars are peering, shadows falling you can hear my heart
calling a little bit of loving makes everything right
i'm gonna see my baby tonight oh boy - oh boy
