

MxPx, Party My House, Be There

It's about time for a party at my house
And it wouldn't be the same without you
No not at all as I recall
You've got what I need
Bring along yourself and don't forget that smile
And plan on staying a while
Till summer turns to fall, as I recall
You've got what I need
You said you were leaving
I said you were crazy
You said that you have some things to do
I'll see you in a while
And don't forget that smile
What else could there possibly be to do?
