

MxPx, Time Brings Change

why can't things be the
way they used to be?
why can't i feel the way; i
used to feel? back in the
days when it all worked
out was it all in my
mind? and now it won't
come out when i don't
think i'll get by when i
felt that i need to cry it
hurts me even more to
think how it was before
no you first is how it
always went the simple
things made us content
we don't need nothin'
except and the one true
God that keeps us
together i hate time!
cause time brings
change! and change
makes me start all over
again i guess i can work
with time but does time work out
