MxPx, Tomorrow's Another Day

I don't want to let my life fly by Do you ever stop, stop to wonder why?

And time flies by When everything is ok It just turns out that life ain't that way Big decisions overwhelm me and I know nothing's free

When I don't think of, think about much People die and we don't know why I could use some understanding Human contact, sign that contract

I don't want to let my life fly by Did you ever stop to wonder why-ever stop to wonder, wonder why?

And time stands still when no one understands you When you don't quite understand yourself But just know this that God is faithful Even if you don't have faith yourself

There's nothing quite like being sure of What's inside your heart It's mostly simple but not so easy To know just where to start

Today didn't have to be this way Tomorrow is another day Another chance to make things right A chance to make sense of last night

A chance to fully live your life I don't want to, I don't want to, you don't want to
