

MxPx, Where Will We Go

It's been a while,
but I remember
that time long ago.
The only worries,
that we had
was getting our next show.

Where will we go when its over.
What will we do when we're through.
Where will we go when its over.
What will we do when we're through.

I'm gonna settle down,
in my small town.
and start to fade away.
The only memories that i'll,
are days just like today.
Just like today. Just like today.
Just like today. Just like today.
YEAH!!

Where will we go when its over.
What will we do when we're through.
Where will we go when its over.
What will we do when we're through.
