

My American Heart, All My Friends

All my friends drowning at sea
Yeah everyone except for you an' me
And they'll be at the bottom
Yeah they'll be at the bottom

An anchor tied to their feet
With all their love, their hearts will sink
And they'll be at the bottom
And they'll be at the bottom

I think I'll take the long way home
I suggest I sit up straight, sit up straight
I sit up straight, sit up straight
I think I'll take the long way home
I suggest I straighten up and get out
Straighten up and get out

You know I won't mind
If the current falls over you
You know I won't mind
If the current falls over me too

('Cause) I think I'll take the long way home
I suggest I sit up straight, sit up straight
I sit up straight, sit up straight
I think I'll take the long way home
I suggest I straighten up and get out
Straighten up and get out
Yeah)

(Claps)
(Whistling)

I think I'll take the long way home
I think I'll take the long way home
