

My American Heart, Search And Rescue

A dozen city lights
It's bitter cold tonight
I'll see all you've got and you'll see mine
Just watch your own life
And pass it by
I'm not satisfied
(Just complicated)
So go and we'll jet this place together
It's what you want so tell me what we've got now
No more time to mess around now
Contemplating of our time yeah
If forever stays this warm
Then there's no harm
In our future
(So what's our future?)
It's written out in sand
Just take my hand
And we'll drive away
Let's go somewhere far now
We'll dissipate our fears
And make them thoughts of hope
You're saying that I'm blind
But she doesn't know I'll never leave her side

A lover she's called
So I'll wait forever (but she's already mine)
My heart
Search and rescue
But I found you

If forever stays this warm
Then there's no harm
In our future
(So what's our future?)
It's written out in sand
Just take my hand
And we'll drive away
Let's go somewhere far now
We'll dissipate our fears
And make them thoughts of hope
You're saying that I'm blind
But she doesn't know

But hey (wonderful)
Isn't she (beautiful?)
(Goodnight)
But hey (wonderful)
Isn't she (beautiful?)
(Goodnight)
But hey (wonderful)
Isn't she (beautiful?)
(Goodnight)
But hey (wonderful)
Isn't she (beautiful?)
(Goodnight)

(Goodnight) Goodnight
(Goodnight) Goodnight
