

My American Heart, This Won't Stop

Just shut your eyes
And I won't bleed till you're sleeping
Lock the heart behind as we are all smiling

Like a rush in the rain
But I'm not freezing
But this is easier for me to breathe

We are your name in vein
(This won't stop)
While ripping my heart out
And I'll repeat those words you said
Last night you wished
They'd never left your lips

(and, and, and and...etc.)
And I'll repeat those words you said
Last night you wished
They'd never...
