

My Black Sky, I Still Love You

you dont know how i feel
I'm broken
and you dont care
i just wanna run away
and say
I didn't know you
but i cant do that
'cause i still love you
i miss you
but this time
you said "neve mind";

(chorus):
that's a nightmare
but you dont care
'cause you're in dream
and i scream
that's my nightmare
i'm lost somewhere
and i cant awake
'cause im the one you break
...'cause i still love you

i hate you
and i love you
i can tell
how is the hell
i wont go to heaven
'cause my heart is broken
why
do i cry ?
i cant forget
'cause i'm upset

and you left

(chorus):
that's a nightmare
but you dont care
'cause you're in a dream
and i scream
that's my nightmare
i'm lost somewhere
and i cant awake
'cause im the one you break
...'cause i still love you

(bridge):
i was so high
and now i wanna die
'cause you're gone
and i'm torn

(chorus):
that's a nightmare
but you dont care
'cause you're in a dream
and i scream
that's my nightmare
I'm lost somewhere
and i cant awake
'cause im the one you break

...that's a nightmare
but you don't care...
i still love you
