

My Bloody Valentine, I Don't Need You

Do you think that I still love you?
If you act the way you think I wanted you to
Throw away the love that we once had
With the time we've loved
Thought we could never be sad

Don't touch my girlfriend
Don't look cross in the eye
She's still my girlfriend
I'm thinking of you through the night

The way that you talk, the way that you smile
Could make me happy for a while
Things that you see, the things that I do
The way that you walk, the things that you say
Makes it hard to go away
Don't be so sad 'cause I thought that you knew
(That) I don't need you

If I could talk to you, would you turn away?
I convinced the girl there was nothing I could say
I knew there was a time when we were close
All this company, that's when you loved me the most
