

My Darkest Days, I can't forget you

All the things I say
Can't take this pain away
And all that I do
I can't forget you
With every single day
This pain won't go away
And everything I do
I can't forget you
All the things I say
Can't take this pain away
And all that I do
I can't forget you
With every single day
This pain won't go away
And everything I do
I can't forget you

(CHORUS)

Every time u try to tell me get the fuck away
If you never leave I can't forget you
And every word we say between us has to turn to hate
If you never leave I can't forget you
And every single day
The pain won't go away
I can't forget you
Every time you try to keep me in a runaway
If you never leave I can't forget you
Can't forget you
All the pills I take
They kill me more each day
Cause all that I do
I can't forget you
If only I could change
And you just stay the same
Cause all that I do
I can't forget you
These pictures will not fade
I tore them up today
I don't want them in my room
I can't forget you

(CHORUS)

Can't forget you(x4)
All the things I say, Can't take this pain away
And all that I do, I can't forget you
With every single day
This pain won't go away
And everything I do, I can't forget you
These pictures will not fade, I tore them up today
I don't want them in my room
I can't forget you
(CHORUS)
Can't forget you
