

# My Darkest Hate, Torment

walking, the ebony  
all is lost  
will we be free  
breaking into a realm  
eternity, all condemned  
faceless, they disappear  
no one, will nothing hear  
darkness, forever free  
we'll come back,  
the end we'll see

now, feel, war

coming, home again  
from the war  
lost many friends  
day in, day out we saw  
cruelty without a law  
waking up every night  
see their faces  
an endless fight  
brutality, in my head  
cncsciousness, will we be mad

now, feel, war

now I see the agony in their eyes  
forever listening to the painful helpless cries  
fallen ones, will they be released  
from their fault, endless hypocrisy

get their lifes  
born to die  
i will see  
true agony

torment, my eyes will see  
gateway into reality  
torment, my eyes will see  
gateway into reality

torment  
torment  
torment  
torment
