

My Dying Bride, Under Your Wings And Into Your

I need to see a sign
Will you take me away?
They come. They go. Will you stay here?
I need, I need to see a sign
You need me
Who wants more?
I need him
To find my way
Be there now
Feel them
Be my call
I'll be the one
I'll lose the fight
You sing the song
Of one hundred nights
Bring them to me
Because I know I'm right and I will
Take them all away
Never to be seen again
I'll take them to the sea
Leave it all to me because I'm
Feverish, devilish and irrelevant
You need me
I want you
I need, I need, I need, I need
Are you there with me
Be there now
Feel me now
All my world
