

# My Favorite Highway, The Chase

Even though it's hard to hear the truth  
It's every little thing that makes you move  
And there is a reflection in the mirror  
You don't believe  
And darling it's so hard to understand  
I wish that I could fix what you feel instead  
Baby, why'd you do that, I can see through that  
Give it a chance

And you can't just disappear  
I'm begging you come on out, come on out  
Promise that the coast is clear

(chorus)  
I don't mind the chase  
Baby, you're lost out there in a different place  
And I can't get to you  
I don't mind the chase  
Baby, you're lost out there in a different place  
And I can't get to you  
But I'll do what I have to

Every little piece you pick apart  
You've hidden in a corner of your heart  
And there is a reflection in the mirror  
That you don't see  
And darling, it's an awful lot to give  
A memory you chase but you can't relive  
Baby, it's supposed to, baby you're close to  
Letting me in

And you can't just disappear  
I'm begging you come on out, come on out  
Promise that the coast is clear

Chorus

Oh, you never could quiet honestly explain  
How much he means to you  
You're doing everything they ask you to  
There's a part of you, you wish you knew  
And every escape you thought you could make  
No, you did not think it would show  
Darling it was way too much  
Way too slow

Chorus
