

My Insanity, Solar Child

First assembly will be a reunion
New breeds produce old poverty
Time finds new dimensions
Forthcoming the beginning of the next existence
Come fortress come

Are we prepared for uncertainty?
We are the mind of this machinery
The future - the start of new mortality

The center of energy
A solar child will assert supremacy
It comes from the galaxy of friendliness
Where the sun shines

Where flowers are in bloom
Where birds chirp on the trees
Where dolphins glide through the ocean
But here there'll be no sun!
