

My Ruin, Burn The Witch

I can see her coming
Filled with her disease
Don't bother running
she sees me
her smile is thick
So sick there'll be no cure
I never wanna be just like her
No

(chorus)
Burn x2
Burn the witch

I watch her leave
Still filled with her disease
Don't give a fuck what she thinks
Her hands are clean
But no one here believes
So full of shit
That she stinks

(chorus)
burn x2 burn the bitch

antithesis (?)
To everything she is
The enemy
I am a nemesis
This ugliness
Will stick and linger
So i just focus on my middle finger

(chorus)

I see her coming here x3
Burn the witch
(repeat)
