

My Ruin, Get Pretty

pretty girls,they make friends
fake smiles that don't offend
it's not hard to play pretend
then again-then again....
ugly girls make enemies
just go ask the NME
this is what they said to me.

get pretty-plastic parts not included
get pretty-silicone sold seperately!

pretty girls,they make friends.
loved by every camera lense.
some day all of this will end
tell me when! tell me when!
ugly girls make enemies.
maybe that's what's wrong with me
if i'm not what you think that i should be...
then what should i be?

the beauty myth is alive!

i'm not pretty! you're not pretty. she's not pretty. he's not pretty
we're so pretty. let's get pretty!
