

My Vitriol, This Time (Demo)

Come spread your wings
Forget all those beautiful things
Come break my heart
You know that I'm falling apart

Sometimes they will leave you here behind, tonight
The sun shines forever in your skies now, tonight

Come spread your wings
Forget all those beautiful things
Come steal my heart
You know that I'm taking a start
This time, this time

Sometimes they will leave you here behind, tonight
The sun shines forever in your skies now, tonight
This time

And they broke your wings
And I guess it's just one of those things

Sometimes they will leave you here behind, tonight
The sun shines forever in your skies now, tonight, tonight
This time, this time
