Mya, Extacy

VRS1:

I wanna wake up in the morning Feelin' mad at myself From what I did the night before I don't wanna know your name Or where you come from Your occupation don't mean shit to me

BSEC1:

We can take it to the floor What you like, I'll give you more All night long and that's for sure You and me slip into ecstasy

HOOK:

I...

I wanna get up, I wanna get out I wanna get lost... Baby

l...

I wanna get out, I wanna get up I wanna get off... Take me

VERSE2:

Let's go to another place Release some tension An intermission... Have your way with me We'll get lost inside the moment I'll be your ocean You be the captain And set me free

HOOK:

١...

I wanna get up, I wanna get out I wanna get lost... Baby

l...

I wanna get out, I wanna get up I wanna get off... Take me

BRIDGE:

Over and over, round and around again Goin' in circles, what an experience It's got me open Never thought I would lose control But tomorrow I'll wake And the truth I will face We could never be serious

HOOK:

l...

I wanna get up, I wanna get out I wanna get lost... Baby Can you take it baby, take me I wanna get up, I wanna get out I wanna get lost... Baby I...

I wanna get out, I wanna get up I wanna get off... Take me
