

# Myslovitz, Behind Closed Eyes

I'll just close my eyes  
Do as you like... Fright  
And all the time, I sham  
'Cos so very seldom I want to laugh... Fright  
And if it proves all right  
I've got a fantastic method for life... Fright  
You've got some good advice  
Your suggestion's not  
I want to try... Fright

A huge hole in the door  
Making my things public  
You see me now... Fright  
I'm angry in my calm  
And I can no longer look on and stand

Fright... Fright

I want to find some words  
And shout out all furies  
I hate you all... Fright
