

# Mystery Skulls , Freaking Out

I got this feeling  
I'm losing you  
It's got me reeling  
I need a clue  
Got my heart burning  
I lost my spell  
Can't see you turning up  
This looks like hell

I can't fight this feeling  
It's not in my head  
And I know it's something I did, baby  
I can't fight this feeling  
I'm out of control  
Got to get back to the life that I know

I'm not freaking out  
But it feels like time is running out  
How did this shit come about?  
I'm not freaking out  
But I'm afraid  
Afraid of losing you  
If that's what it comes to, baby  
If that's what it comes to, baby  
It's all you gotta say to me  
If that's what it comes to, baby  
If that's what it comes to, baby  
It's all you gotta say to me

I'll just keep biting my tongue  
'Til all you want is done, alright  
And you just wanna leave me  
Oh yeah  
Oh, come on

I can't fight this feeling  
It's not in my head  
And I know it's something I did, baby  
I can't fight this feeling  
I'm out of control  
Got to get back to the life that I know

I'm not freaking out  
But it feels like time is running out  
How did this shit come about?  
I'm not freaking out  
But I'm afraid  
Afraid of losing you  
If that's what it comes to, baby  
If that's what it comes to, baby  
It's all you gotta say to me  
If that's what it comes to, baby  
If that's what it comes to, baby  
It's all you gotta say to me
