

# Mystery Skulls , Ghost

Cause the world might do me in  
It's all right cause I'm with friends  
Cause I'm giving up again  
It doesn't matter  
And I'm feeling like a ghost  
And it's what I hate the most  
Cause I'm giving up again  
And this time (this time, this time)

This time I might just disappear  
This time I might just dis  
This time I might just disappear  
This time I might just dis

Try and hear me, then I'm done  
Cause I might just say this once  
Seen this played out in my dream  
It doesn't matter  
Time for givin' up the ghost  
Fuck, it's you I hate the most  
Maybe there is no guarantee  
It doesn't matter

This time I might just disappear  
This time I might just dis  
This time I might just disappear  
This time I might just dis  
This time I might just disappear  
This time I might just dis  
This time I might just disappear  
This time I might just dis  
This time I might just disappear  
This time I might just dis  
This time I might just disappear  
This time I might just dis
