

# N\*E\*R\*D\*, Brain

What do you think baby  
I know I want you  
And you know you want me  
But can you promise please  
Youll say yes to me  
I love how you think  
You think oh so deep  
And share your thoughts with me  
I buzz then fall asleep

Chorus

Do you really even love me?  
If you do there is no pain  
Do I really even love you  
Or do I really love your brain  
I just love your brain  
Girl unlatch your bra  
But first unlatch your jaw  
Its cool to call me dog  
But your head is under my paw  
Soon as your lips part  
Then your tongue it starts  
My pulse just races hard  
Enough to pop my heart  
Im so high

Repeat Chorus

3X

yeah, Hands up, if you feel like that

3X

hey huh hey what

2x

Head

The things you think on me  
The games you play on me  
And stay the day on me  
The words you say on me  
When we party hop  
Bathroom countertop  
Or in your old mans truck  
Grocery parking lot
