

N.E.R.D., Don't Worry About It

It's that dark skin,
It's your juicy lips girl,
shes bad bad bad ass
shes bad bad bad ass
shes bad bad bad ass
shes bad bad bad ass

I've been all around the earth
all those girls that kiss me first
but you just stand there with a smirk
but dont you worry about it

so baby dont fool with me
if ya dont wanna give it up
dont worry about it

I just wanna feel your
you just wanna feel my
we should just go feel our
imagine aw fuck it
dont worry about it

baby dont fool with me
if ya dont wanna give it up
dont worry about it
baby, dont fool with me
if ya dont wanna give it up
dont worry about it

baby look at your girl starring at me
and her girl in the next seat
they want more but now i get three
i said baby dont fool with me
if ya dont wanna give it up
dont worry about it

chocolate flower

but i wanna learn from you

so when it comes to a girl like you
that moves me
