

# N.E.R.D., Find My Way

Just a minute ago, Just a minute ago  
Just a minute ago I said some things  
I know That I can't change back  
When I just screamed that didn't mean  
For us to break, break our pact

I'm searching for my way back  
But I'm looking through a peephole  
I'm trying to find my way back  
I wanna be the hero

I'm here you're there, I'm here you're there  
I'm here you're there as sweet as this air  
But no one is breathing such  
How can this be, it's your face I see  
This is so crazy, were in the same room

Chorus:

I'm searching for my way back (I'm searching for my way back girl, searching for my way back girl)  
But I'm looking through a peephole ( I'm searching for my way back girl, searching for my way back girl)  
I'm trying to find my way back ( I'm searching for my way back girl, searching for my way back girl)  
I wanna be the hero( I'm searching for my way back girl, searching for my way back girl)

I don't care what it takes  
But I know we got to get there (we got to get there)  
We got to get there (we got to get there) I can see it know you and me  
I know nothing will change if both of us just sit here (And we just sat here)  
And we just sat here (And we just sat here) come one join me girl can't you see

(Hey) I'm searching for my way back (I'm lost where am I)  
But I'm looking through a peephole (I just wanna go home)  
I'm trying to find my way back (I'm out here by myself)  
I wanna be the hero (I'm lost in space)

Chorus (repeat)
