

# N\*E\*R\*D\*, Stay together

We need to stay together girl  
Think about it  
It was something about me and you girl  
Look here  
When god created human beings  
I bet he didn't think of bombs and things  
I bet he wonders why  
Just like I never imagined it would be  
Anything between you and me  
I know because I cried I cried  
Chorus

You were my sunrays  
without you girl there was no days  
never I think I'd speak the phrase  
What the fuck just happened  
You were the heart I owned  
the beat just like a metronome  
can't believe my heart is gone  
now what the fuck just happened  
I was always the one to hide  
then you got up to keep me inline  
looked up to dam this hurts  
all these year of dicipline  
just to end up here at the end  
can you tell me what I learned  
We need to stay together girl  
Oh! Hey!

We need to stay together girl  
Think about it!

Chorus

You were my friend  
My friend 'till the end  
You were my friend  
Now what the fuck just happend  
You were my friend  
(repeat)

We need to stay together girl

Oh! Oh!

Hey Girl, we need to stay together girl  
think about it baby
