

N.E.R.D., The Way She Dances

Unzip your skirt
Take off your blouse
I hope your toes are painted
Cause you gon' dance in your undies all over the house
When your eyes are closed
I hope I'm the man you see (the man you see)
Cause if not
I want you to know tonight I plan to be
Is this for me

Slow motion like a dream
But real time is what it seems
I love the way she dance
Slow motion like a dream
But real time is what it seems
I love the way she dance
See I love the way she dance
Girl, I love the way you dance

I'm in your aquarium
Are you a mermain or something
Is it possible to marry one
Big tits or a fat ass and turquoise skin

When your eyes are closed
I hope I'm the man you see (the man you see)
Cause if not
I want you to know tonight I plan to be
Is this for me

Slow motion like a dream
But real time is what it seems
I love the way she dance
Slow motion like a dream
But real time is what it seems
I love the way she dance
See I love the way she dance
Girl, I love the way you dance

Call all cars , please arrest her
(She's a criminal in my dreams)
She just stole my heart
(It's an A.P.B.)

Slow motion like a dream
But real time is what it seems
I love the way she dance
Slow motion like a dream
But real time is what it seems
I love the way she dance
See I love the way she dance
Girl, I love the way you dance

Kissing you, kissing me, it's euphoria
Remission two, remission three
It's kissing four of ya
(When sparks fly, sparks fly)
I think that's love
(When sparks fly, sparks fly) Don't you think
Close your eyes
Hold my hand
Concentration
No destination
Just dance on constellations

(When sparks fly, sparks fly)
I think that's love
(When sparks fly, sparks fly)
Don't you think
Excuse me
But girl come with me
See you and I eachother's company
Can you see
(When sparks fly, sparks fly)
I think that's love
(When sparks fly, sparks fly)
Don't you think
