

N.E.R.D., You Know What

At first it started with the eyes
I'm like uh uh no way your sister can't know

And so the tension slowly builds
You got them slanted "all systems go

Then you kissed my cheek my knees get weak
My heart just skipped a beat so I just froze

Then you touched me there I knew you would
And girl you touched me good I'm like oh oh

Know what know what know what you know what
I'm sorry sorry sorry sorry
It hurts me it hurts you it hurts me what we do
But so good so good so good so good

Let me show you where you went wrong
You know that our sex took us to and fro

Then you had the nerve to say you're hurt
And fix your mouth to blame the Cuervo

Then in me could find you compromising
I'm just like you know what you chose

I don't want to say it again
But here it goes fuck it we just friends now where's my clothes

Know what know what know what you know what
I'm sorry sorry sorry sorry
It hurts me it hurts you it hurts me what we do
But so good so good so good so good

What am I gonna do when I can't get anymore
I'd rather not know oh!

Cause if you wanna know the truth
Nobody make me come like you I just roll over

I can't let my mind think of you
I hit that down to get you on the phone

Cause baby it's just not the physical
I got with you I'm addicted to your moan

Know what know what know what you know what
I'm sorry sorry sorry sorry
It hurts me it hurts you it hurts me what we do
But so good so good so good so good

The rumors
The rumors
The rumors

This ain't right (you know its so)
You know I want it (you know its so)
You know I want it (you know its so you know)

Girl this ain't right (you know it too)
You know I want it (you know it too)
You know I want it (I'm mad at you)

You try to keep your feelings inside the room

But then you wave me down when you see me like hey hello

And you know we never care about a public place
I see it in you face there's a "time to go
How we gonna stop?

Know what know what know what you know what
I'm sorry sorry sorry sorry
It hurts me it hurts you it's hurts me what we do
It's so good so good so good so good

Your friendship means the most to me
Your friendship means the most to me
