

'N Sync, Are You Gonna Be There

If I was down
Would your arms lift me up to higher ground
With just the strength of your love
When I was lost
Would I find something in your eyes to lead me home

And if it all went wrong
Would you be there to hold
It's easy to be there through the good times
But when the times get hard
Would you stay or walk away

Chorus:
Are you gonna be there when the rain comes
Are you gonna be there with a warm touch
Can you swear you'll be there with a real love
Are you gonna be there
Will you stand by my side through the bad times
Through whatever we'll be will you still be mine
Will you stay in my life for a lifetime
Are you gonna be there

When I need someone to hold
Someone there for me
Are you gonna be there

In all my world
If it should all fall down
Will you be there
Be there to turn it around
Will you still care
Can I depend on you to see me through this life
If it all goes wrong
Will you still make it right

It's easy to be there through the good times
But when the times get hard
Will you still be on my side

Chorus

When I need someone beside me
Someone there for me
Are you gonna be
There with the arms to hold me
There with the love I need
(There with the love all that I need)
Then will you be there
Will you be there
Heart and soul
I need to know

Are you gonna be there
Are you gonna still care
(Are you gonna still care)
Are you gonna be... yeah

Will you stand by my side
(Stand by my side)
Are you gonna be mine
Are you gonna be there
(Are you gonna be there)

Chorus (2x)
