

'N Sync, Are you gonna be there

If I was down

Would your arms lift me up to higher ground

With just the strength of your love

If I was lost

Would I find something in your eyes to lead me home

And if it all went wrong

Would you be there to hold

It's easy to be there through the good times

But when the times get hard

Would you stay or walk away

Chorus:

Are you gonna be there when the rain comes

Are you gonna be there with a warm touch

Can you swear you'll be there with a real love

Are you gonna be there

Will you stand by my side through the bad times

Through whatever we'll be will you still be mine

Will you stay in my life for a lifetime

Are you gonna be there

When I need someone to hold

Someone there for me

Are you gonna be there

If in my world

If it should all fall down

Will you be there

Be there to turn it around

Will you still care

Can I depend on you to see me through this life

And if it all goes wrong

Will you still make it right

It's easy to be there through the good times

But when the times get hard

Will you still be on my side

Chorus

When I need someone beside me

Someone there for me

Are you gonna be...

There with the arms to hold me

There with the love I need

Then will you be there

Will you be there

Heart and soul I need to know...

Are you gonna be there

Are you gonna still care

Are you gonna be there

Will you stand by my side

Are you gonna be mine

Are you gonna be there

Chorus
