

'N Sync, I Guess It's Christmas Time

Feel the magic in the air
Christmas is all around
Something about this special time of year
Blanket of snow falls down from the sky
Voices of angels
open our hearts so we can open our arms

CHORUS

And we'll all join hands
To celebrate the goodness
That shines inside of everyone
Must of been apart of some grand design
Guess Christmas time

See the face of the little boys and girls
Singing their first noel
A see refrain heard all around the world
A solumn forgiveness
A comforting peace
A time to remember what life really means
The important things

CHORUS

Open Our hearts
So we can open our mind

CHORUS

Merry Christmas
