

'N Sync, I need love

I just wanna tell you how I feel
I just wanna have a love that's real
How can I stop this burning desire
I can see that you're the one for me
You're the only one I really need
I need a love that burns like a fire
All I wanna do is give it a chance
Everybody needs a true romance
I would give anything to be with you
I will give you all the love you need
If you only give your love to me
What would I do if I were without you
I need love
You need love
We all really need love
All I want
All I need
We all really need love
